Projects

❖ Home Automation Using Hand Gestures

This system helps users to turn on and off their home appliances using hand gestures. A website is also provided in order to control these devices Remotely, this enables the possibility of controlling devices from anywhere irrespective of users location.

<https://github.com/sagarrb1805/HandGestureBasedHomeAutomation.git>

❖ TODO Application

In this TODO app, users can login with the credentials they have used to create an account and can add their to-do tasks. Once the task completed the user can mark it as done.

<https://github.com/sagarrb1805/todoapp.git>

❖ Shopping Cart

This shopping cart enables users to browse through the products and can add those products to their cart.
